How To Get Laeeb

1. Create a MetaMask Wallet or Trustwallet
\$WhiteDoge token is available on the Binance Smart Chain. MetaMask and Trustwallet is a third party BEP20 (Binance Smart Chain) browser wallet, and the very best at that! On Google Chrome, Download Metamask (Browser extension) or Trustwallet (an app for your phone). After that, you will have to add the Binance Smart Chain to your network-list.

2. Send \$BNB to Metamask or Trustwallet
Acquire BNB through MetaMask itself or transfer it to your MetaMask wallet address from another wallet (e.g. Coinbase or Binance). Transfer the tokens to your MetaMask wallet address. BEP-20 addresses start with a "0x".

3. Visit Pancakeswap
Go to <https://pancakeswap.finance> and click the "Connect Wallet" button. When Metamask asks for your signature, go ahead and sign it. PancakeSwap

4. Swap \$BNB for \$WhiteDoge
Enter the amount of \$BNB you would like to swap for \$Laeeb. Lastly, HOLD!

Please read the disclaimer carefully

Before using any part of our Website and purchasing and/or trading Laeeb cryptotokens or any other cryptotokens that we may offer through our website from time to time, please consider the timing of the following risk factors (many of which are unique and inherent to cryptotokens) ("Tokens ").

If any of these risk factors materialize, the value of the token and your ability to access and transfer the token could be materially adversely affected.

Therefore, when you purchase tokens, you are exposed to considerable risk and potential financial losses. Please also note that this risk statement is not exhaustive.

You should conduct further research (and seek professional advice) to carefully determine whether buying and/or trading tokens is appropriate for your particular financial situation and risk tolerance.

We are not responsible for any loss you may incur as a result of your purchase, transfer or use of tokens. Tokens are high-risk assets and you should never buy tokens with funds you cannot afford.
